

CREATE YOUR OWN BEAR MASK!

1. With an adult's help, cut out half of a paper plate, with a triangle at the bottom for a nose.
2. Trace two circles for eyes and then cut them out.
3. Use the scraps to cut out two ears and a nose for your bear.
4. Color in the bear mask using a brown marker or paint. Color in the nose using a black marker.
5. If you're using paint, wait for it to dry, and then use a glue stick to attach the ears to the top of the bear's head and the nose to the tip of the triangle.
6. Poke a hole on either side of the mask and use string to tie the mask on your head. You can also staple the string to each side of the mask instead!

NOW YOU'RE A BROWN BEAR TOO!
